

## Praktical training in Jupiter Artland

We have now the opportunity to provide accommodation for gardening volunteers at Jupiter Artland. This is advertised on the Working Away website, <https://www.workaway.info/>, but anybody interested could contact me directly on [thomas@jupiterartland.org](mailto:thomas@jupiterartland.org).

In exchange for 5 hrs of work a day during the week we can provide accommodation and food, which would be prepared by the volunteers themselves. The idea is to work closely with our team of gardeners and help to maintain and improve the grounds of Jupiter Artland.

I think this could be a great opportunity for young gardeners and give them the chance to work in a developing landscape inspired by contemporary art. There are very good bus connections to Edinburgh and we are only 15 minutes from Edinburgh airport.

The cottage in the park has two twin rooms, a small kitchen and bathroom and is located close to the staff room and garden offices.
